Antibusal C100

Antibusal C100 is a non-silicone antifoam for all types of textile processes. It exhibits excellent defoaming and foam prevention and may completely washed off fabrics and machinery.

General Characteristics:

Appearance:	Clear yellow fluid.
Composition:	Hydrocarbons and special defoaming compounds.
Ionic Charge:	Nonionic.
Solubility:	Miscible with water.

Features:

1. Antibusal C100 is a silicone-free antifoam with long lasting effectiveness.
2. Antibusal C100 is stable in acid or alkaline textile wet processes.
3. Antibusal C100 is suitable for HP dyeing and has excellent stability.
4. Antibusal C100 may be completely washed off fabric and machinery; it will not generate oil spots or stains.

Dosage:

Antibusal C100 should be diluted to a 10% solution before addition to any treatment bath. The dosage depends on the user's particular requirements; the following is a general guideline.

Antibusal C100 50-100 PPM
