## ProFeed

Acid Protease for Feed applications.

### TECHNICAL INFORMATION

ProFeed is a acid protease enzyme preparation obtained by submerged fermentation from bacterial source. It breaks down wide range of proteins from animal or plant origin into amino acids. ProFeed product is approved by Halal.

### SPECIFICATIONS

- Appearance : Off white colored powder
- Odor : Normal fermentation order
- Taste : No Specific taste
- Miscibility : Active ingredient is completely soluble in water
- Dosage : Depends on feed composition and desired effect  
General recommendation : 25-50 g / ton of feed.
- Activity (powder) : Protease: Min. 400 U/gm
- Stability : Stable at moderately high temperatures

### ADVANTAGES

- ProFeed is used for improvement of the digestibility of protein containing raw materials in poultry feeds either from plant or animal origin
- ProFeed improves the utilization of proteins within diet and also works along with proteases produced by animal itself

### PACKING

ProFeed is available in 25kgs HDPE / Fibre drums

### SAFETY

Material Safety Data Sheet is supplied with all products. Safety manual is available on request

### STORAGE

Cool, dry conditions and protected from sunlight are recommended for storage. When stored in original sealed containers below 25C, the product will remain stable and maintain its declared activity for at least 6 months.
